

# Marmoran

The Architects' Choice

A quarterly newsletter publication of Marmoran

One of the many Marmoran projects currently underway is at the Biomedical Research Facility at the Tygerberg Campus. Our Master applicator, Whiteheads, is applying 5000 square meters of our Aquanil (pure acrylic paint). The architect for this project is Roelof Rabe Architects. We are extremely excited to see the end result.

## **CONGRATULATIONS!**

**Angie Coetzee**

*Branch Manager of  
Kwa-Zulu Natal*

Celebrates her 10-year anniversary at Marmoran. Thank you, Angie, for your hard work and dedication to the Company.

## **JULY/2021/ISSUE 3**

We are already halfway through 2021, hard to believe! Marmoran is almost ready to roll with the re-established factory in Cape Town.

We wish you health, happiness and success for the rest of the year.

## Latest Projects

Other noticeable projects include the renovation of the Honeydew Shopping center located in Honeydew, Roodepoort. Marmoran product used is Permasuede, which is being applied by Glacial coatings. The architect on this project is Frans Farmer Architects, with CSS builders being the main contractor. Additional projects include the new Varsity College and CPUT campuses in Newlands, the completion of the Bridgewater One project in Cape Town, and the Chartwell Centre in Umhlanga.

## New Applicators

Congratulations to Just Services in Tzaneen, Limpopo, on becoming our newly appointed applicators. The team at Just Services were trained on applying Marmoran products such as Polyspatter, Permacrete, Permasuede and Stone Finish. Welcome aboard, we are looking forward to working with you on many future projects.

## Creativecote in Paarl now stock Marmoran products!

Marmoran have entered into a partnership with Creativecote, in order to increase the availability of our products in the Western Cape. We are thrilled with this new collaboration and are eager to add substantial value to numerous customers in this region. Creativecote is situated on 40 Main Rd, Paarl.

New Varsity College and CPUT campuses in Newlands, Cape Town.

# New Products

## *Marmoran Limewash*

Marmoran Limewash (MLW) coating is a superior decorative coating based on a pure acrylic resin. This limewash is ideal for brick and stone applications for artisan finishes and antique patinas, or for full limewash coverage. When applied correctly, MLW creates a whitewashed brick effect, which can vary depending on the way it is applied and the desired effect.

## *Marmoran Magnetic Primer*

Marmoran has a black magnetic paint primer for internal walls. This product transforms walls, wood and other surfaces into magnetic receptive surfaces.

Three coats of the primer is required, meaning one litre of magnetic primer covers 2sqm with the three coat system. Three coats is important to maximize the magnetic receptiveness. You can then paint over it with any colour PVA or chalkboard paint and it will still retain its magnetic properties.

This can be used in:

- **Homes:** Kids rooms - we make magnetic puzzles, shapes, dominoes etc.; home office applications (action planners, whiteboards); photo wall
- **Business:** Project plans; magnetic chalkboards.
- **Schools**

---

***Our sympathy and condolences go to Naidene Richards family and friends on the passing of Ed. A charming gentlemen of the old school. JW Richards is now being run by Hannes Gous.***

## New to Marmoran

Marmoran is pleased to announce the recent hiring of Alec Bedser, who has joined our sales team in the Gauteng region. He has worked in the sales industry for 8 years.

We also welcome Dough Bergh to Marmoran. Dough started his career at Plascon in 1971 and since then he has worked for 4 different paint companies and has gained 49 valuable years of experience in the paint industry. Dough joins Marmoran as an additional chemist, and we are excited to see his vast experience being put to good use at Marmoran.
